

SBI CONNECTORS PRODUCT APPLICATIONS

YOUR SPECIALIST IN ELECTRICAL CONNECTIONS

ELECTRICAL EQUIPMENT

Our commitment as a manufacturer specializing in high-voltage connectors is to offer comprehensive solutions to our customers.

We provide advice to engineering firms, utilities and contractors in the

design and installation of electrical substations and supply high-voltage and grounding connectors, in addition to complementary pro-

ducts, such as conductors, strings or insulators.

HV POWER SYSTEM SOLUTIONS

> DEDICATED TO GIVING SOLUTIONS TO OUR CUSTOMERS AND **CONTINUOUSLY IMPROVING OUR PRODUCTS**

RENEWABLE ENERGIES & DISTRIBUTION NETWORKS

SBI manufactures low and medium-voltage connectors

for overhead and underground electrical distribution network, as well as connections for renewable solar, photovoltaic and wind energy farms.

We conduct studies and offer customized solutions for different electrical equipment connections, such as transformers, motors or generators.

Our R&D team conducts simulations and standard tests to help our customers choose the best solution in each case for all types of conductors and voltages.

SBI designs and manufactures electrical connectors

for all types of connections in rail, catenary or traction substations.
